RAIDR - XP & Coin Economy Recommendation

Client review document - proposed balancing of XP rewards, free coin earnings, coin spending, avatar pricing and paid coin packages. The goal is to keep free progression rewarding while preserving the value of Coins as an important revenue stream.

1. Recommended XP & Coin Economy

Feature / Action	Current XP	Current Coins	Suggested XP	Suggested Coins	Short Note
Coin Rush Checkpoint	50-200	+1	50-100	+1	Frequent action; keep Coins low and use XP for progression.
Live Event Redeem	100-300	0	200	+10	Completion reward; a small Coin bonus encourages event participation.
Daily Drop	50	+100	50	+10	100 free Coins per day is too high relative to the smallest paid Coin pack.
Rare Drop	150	0	150	+25	Rare enough to feel valuable without replacing the need to purchase Coins.
Own a Raid Zone	0	+60/hour	0	+10/hour	Passive earning should be controlled so zone ownership does not overwhelm the paid economy.
Rare 2x Boost	0	2x Coins	0	2x Coins	Keep the multiplier; it makes Rare Drops and zone ownership more exciting.
VIP - Own 5+ Zones	0	1.0x	0	1.25x	A meaningful VIP advantage without making passive earnings excessive.
Brand Month	50	0	50	+10	Small branded engagement reward; voucher remains the main campaign incentive.
B2B Zone Hold Completed	0	0	100	+20	Adds progression value while the merchant voucher remains the primary reward.
Merchant Ad / Coupon	0	0	25	0	Use XP instead of Coins for promotional interactions.
Invite Friend	New	New	100	+25	Reward only after the invited user signs up and completes a qualifying activity.
Buy 1 Guard	0	-100	0	-100	Keep at 100 Coins; this is a useful recurring Coin sink.
Eliminate 1 Guard	0	-50	0	-50	Keep at 50 Coins; tactical cost should be lower than purchasing a Guard.
Standard Avatar	Varies	~25-35 shown	0	-250	Entry avatar price; achievable through play but valuable enough to support Coin purchases.
Premium Avatar	Varies	-	0	-500	Mid-tier avatar for players who want a stronger or more desirable cosmetic option.
Super / Legendary Avatar	Varies	-	0	-1,000	Premium aspirational avatar; aligns naturally with the 1,200-Coin pack.
Special Limited Avatar	-	-	0	-1,500 to -2,500	Use for limited, event or rare characters; should feel exclusive.

2. Current Coin Store & Recommended Positioning

The current paid Coin packages can remain as the commercial anchor. The proposed earning and spending values make each package useful for a clear type of purchase while still allowing users to earn Coins gradually through gameplay.

Coin Package	Current Price	Recommended Positioning / Use
100 Coins	Rs 270	Small top-up; approximately 1 Guard.
550 Coins	Rs 1,400	Approximately 5 Guards or 1 Premium Avatar.
1,200 Coins	Rs 2,800	Strong mid-tier value; suitable for a Legendary Avatar plus remaining Coins.
2,500 Coins	Rs 5,600	Serious player pack for multiple tactical purchases or premium cosmetics.
6,500 Coins	Rs 13,000	High-value pack for highly engaged / power users.

3. Recommended Core Prices

Item / Reward	Recommended Value
Daily Drop	+10 Coins
Rare Drop	+25 Coins
Successful Friend Referral	+25 Coins + 100 XP
Raid Zone Passive Earning	+10 Coins/hour
VIP Zone Multiplier	1.25x
Guard	100 Coins
Eliminate Guard	50 Coins
Standard Avatar	250 Coins
Premium Avatar	500 Coins
Super / Legendary Avatar	1,000 Coins
Special Limited Avatar	1,500-2,500 Coins

4. Economy Notes for Client Review

• **Daily Drop:** Reducing the reward from 100 to 10 Coins protects the value of the 100-Coin paid package while still rewarding daily engagement.

• **Raid Zones:** 60 Coins/hour can generate 1,440 Coins from one zone in 24 hours before boosts. A lower hourly rate is recommended, together with a daily passive-earning cap.

• **Referrals:** Coins should not be awarded simply for sending an invite. Award the referral reward only after the invited user registers and completes a qualifying activity.

• **Avatars:** Current prices around 25-35 Coins are very low compared with the Coin packages. The proposed 250 / 500 / 1,000+ structure gives cosmetics meaningful value.

• **Overall loop:** Users can play and earn gradually, spend Coins on tactical items and avatars, and purchase Coin packs when they want faster access or premium content.

Client Confirmation: Please review the suggested values above. Any row can be approved as proposed or returned with the preferred XP, Coin reward, Coin cost, or multiplier.
